As an employer, auto-enrolment affects you. The Pensions Regulator carries out spot checks for compliance; don't be named, shamed and fined. We will help ensure that you do what you need to, when you need to.

Automatic enrolment into a workplace pension scheme affects every employer, even if you only have part-time, temporary or seasonal workers.

- You must have a suitable pension scheme to enrol your workers into.
- You must write to all your workers to tell them they are being enrolled.
- You must deduct contributions from their pay and also pay contributions yourself.
- You must do this within set timelines.

If you fail to do all of this properly you may be fined – for every day that you are non-compliant.

Auto-enrolment is a process – it has a number of stages and things that must be done, but it is still simply a process. Get this right and you will get auto-enrolment right.

This is where we come in.

Our low cost fixed fee solution, which we call '**AE delivered**', takes care of the process for you, delivering a fully compliant solution which is tailored and right for you and your workers.

Concerned that you may not have complied properly? Let us audit what you've done for a low fixed fee.
